

In the sky over Vienna

Spinning into Spring. Better weather has brought more visitors to the Prater, including to the park's trademark attraction, the Riesenrad. With clearer skies and sunshine, the Riesenrad offers a panoramic view over the Austrian capital. The ride's cabins are available for

parties and have also proven popular as a unique wedding venue. The Riesenrad achieved world-wide cult status more than 50 year's ago when it served as a pivotal scene in the classic film "The Third Man", which starred Orson Welles as the anti-hero Harry Lime. Photo: apa
